19. How many individual properties are registered in Audubon's ***Bird Habitat Recognition*** program? \_\_\_\_\_

***We Have This!***

*To become designated, the following needs to be in place. Audubon will work closely with you to achieve this list of required benchmarks.*

20. The required number of households are registered in the *Bird Habitat Recognition* program:
- 30% of households with developments of 10-100 single-family homes
  - 25% of households with developments of 101 – 200 single-family homes
  - 20% of households with developments of 201+ single-family homes
21.  A **plan** is in place to examine and implement naturalization methods of mowed detention/retention basins, including the addition of bluebird (or other) nestboxes where appropriate.
22.  At a board, HOA, or committee meeting, we have discussed restrictive landscaping and bird feeding **bylaws** with the intent on creating opportunities for people to use native plants in the landscape, disallow the use of invasive plants, enjoy safe bird feeding and include nestboxes where appropriate.  
*(Please attach minutes from that meeting.)*
23.  We have held a **speaker** event or workshop for residents about birds, native plants in the landscape, insects, citizen science (Great Backyard Bird Count and others), deer management, and/or organic landscape care. Date: \_\_\_\_\_  
*(Please attach flyer or other correspondence about event)*
24.  We have distributed Audubon materials to all residents.

25. \_\_\_\_ Addressing **window strikes** on community buildings by using any number of methods to block or make glass less reflective or less desirable as an “escape” route for birds that perceive the reflection as “real.”
26. \_\_\_\_ Drafting bylaws/rules regarding free-roaming pet **cats** and the control of feral cats on the property  
*(Please attach any related materials)*
27. \_\_\_\_ In an effort to increase percentage of native plants (trees and shrubs) in both common areas and on individual properties, we have discussed (or held) a community **planting day** and workshop in which native plants will be ordered from and delivered by regional native plant resource.
28. \_\_\_\_ In our **natural areas** (where applicable) we do at least one of the following:  
\_\_ Monitor and/or control invasive plants  
\_\_ Inventorying or tracking native plants  
\_\_ Controlling deer by fencing or other means  
\_\_ Including nestboxes where needed  
\_\_ Actively restoring forest, stream corridor, wetland, scrub-shrub, or grassland/meadow
29. \_\_\_\_ We pledge to continue these efforts, with Audubon’s assistance, throughout the year with the goal of improving the ecological footprint of our community and increasing its capacity to provide resources for birds. We understand that annual renewal applications will be required and that specific information about growth and improvement will be requested.
