Funded in part by a grant from the Powder Mill Foundation and Codorus Watershed Fund of York County Community Foundation.

 Audubon | MID-ATLANTIC

Plant Foster Program

The Samara
Project

Why winecups?

- Easy to care for and grow
- Requires little maintenance
- Used as a ground cover plant which reduces the need for mulching and routine weeding

Why Foster?

- Be involved within the community
- Easy way to volunteer
- Learn a new skill or sharpen existing ones

Workshop Event

Learn more and get started by joining us at our free plant foster workshop! Materials will be supplied.

Where: Kiwanis Lake, York, PA

When: July 10th @ 9 am

After the workshop, join us and your neighbors for the planting of an **Audubon Community Garden** at Kiwanis!

Key Information

.....

Foster Plant(s)

- The plant chosen for this program will be easy to care for. It will be a great ground cover plant for the community gardens which reduces the need for weeding!

What you give:

- Three months, water, and love.

What you get:

- Beautiful gardens
- The satisfaction of putting the plants YOU grew into the community garden!
- Little effort for maximum benefit
